SUMMARY

Web GIS Developer and Front-End Developer with over 3 years of experience building dynamic and responsive applications for environmental, public, and commercial sectors. Skilled in creating interactive geospatial solutions using Mapbox, ArcGIS SDK for JavaScript, Leaflet, and Google Maps. Proficient in spatial analysis, geodata processing, and front-end development with React, JavaScript, and TypeScript. Experienced in transforming complex datasets into user-friendly tools that support sustainable development, optimize decision-making, and promote ecological impact.

SKILLS

Proficient: HTML, CSS, Javascript, Typescript, React, QGIS, Mapbox, ArcGIS SDK for JavaScript, Web Development, Spatial Analysis. Web Design with Figma.

Intermediate: Python, Geopandas, Shapely, Folium, ArcGIS Desktop, ArcGIS Online, End-to-end tests with Cypress, component tests with Jest.

Beginner: SQL, PostGis, PostGre.

PROFESSIONAL EXPERIENCE

Web GIS Developer and Geospatial Analyst

Freelance Web GIS Developer and Geospatial Analyst, Araxá, BR – Remote

11/2023 to present

Specializing in dynamic web GIS applications and spatial analyses supporting environmental preservation and commercial decision-making.

Core Responsibilities:

- Reduced stingless bee colony mortality by 20% through spatial analysis and mapping of chemical contamination areas (e.g., UVB usage for mosquito control), directly benefiting native species such as borá, iraiá, and marmelada;
- Performed spatial operations such as interpolation, intersection, watershed delimitation, relief modeling, and contour generation using QGIS, ArcGIS Desktop and Python tools;
- Collected, organized, cleaned, and standardized geospatial data from public and private sources, ensuring consistency and reliability in environmental analyses;
- Advised a commercial client by conducting spatial analysis to identify the optimal location for a sushi restaurant, supporting data-driven business expansion in Araxá;

Key Technologies and Tools: HTML, CSS, Javascript, TypeScript, Redux, Python, Mapbox, ArcGIS SDK for JavaScript, QGIS, ArcGIS Desktop, ArcGIS Online.

Front-End Developer

Power of Data, São Paulo, BR – Remote

09/2023 to present

Development of software solutions that automate data analysis for various sectors, such as energy, public services, and banking.

Core Responsibilities:

- Created a highly adaptable and customizable application interface template to manage corporate indicators such as budgets, deadlines, and performance metrics, successfully deployed across diverse clients including Coca-Cola, energy companies, and the Civil Police of Minas Gerais.
- Implemented new pages and features in the interface of a Decision Engine application, enhancing loan processing and optimization workflows.
- Conducted end-to-end (E2E) and component testing to ensure functionality, re-liability, and seamless user experiences;
- Reviewed and refined application manuals to improve clarity, usability, and accessibility for end-users and stakeholders;

Key Technologies and Tools: HTML, CSS, Javascript, TypeScript, Redux, Cypress, Jest, Figma.

System Analyst

Bit Tech, Araxá, BR – On site

07/2022 to 08/2023

Improved system performance through user support, database management, and front-end optimization.

Core Responsibilities:

- Provided technical support to users by diagnosing and resolving system issues, ensuring consistent platform performance;
- Managed and updated the platform's database to maintain the accuracy of user registrations, active campaigns, and product offerings;
- Investigated system errors and contributed to improving system reliability through in-depth understanding of business rules;
- Proposed and implemented the use of React for developing reusable components, resulting in a more scalable architecture and reducing screen development time by over 50%.

Key Technologies and Tools: HTML, CSS, Javascript, React, SQL.

EDUCATION

Analysis and Systems Development

Universidade Cruzeiro do Sul, Araxá, Brazil

06/2022 to 06/2024

Postgraduate Certificate in Cartography, Geodesy, and Geoprocessing

Faculdade Libano, São Paulo, Brazil

08/2024 to present

CERTIFICATES/COURSES

React from Zero to Mastery (with hooks, router, API, Projects), Udemy, Brazil

06/2023

GIS & Geospatial Analysis with Python, Udemy, EUA

01/2024

Getting Started with Data Management, ESRI, EUA

11/2023

Using GIS to Solve Problems, ESRI, EUA

12/2023

Python for Everyone, ESRI, EUA

11/2024

Mapbox Proficiency for Developers, Udemy, EUA

06/2025

LANGUAGES

Portuguese: Native.

English: Fluent.
